

# JASMIN SHUKLA

Web Team Lead | Senior Backend Engineer | Laravel, React, AI & Cloud Specialist

[+91 9173311121](tel:+919173311121) | [mr.jasmin.shukla@gmail.com](mailto:mr.jasmin.shukla@gmail.com) | [jasminshukla.com](http://jasminshukla.com) | [linkedin.com/in/jasmin-shukla](https://linkedin.com/in/jasmin-shukla)

---

## PROFESSIONAL SUMMARY

- Results-driven Web Team Lead with **8+ years of experience** designing and scaling high-performance, data-intensive web applications using **Laravel, React, and cloud-native architectures**.
- Proven expertise in **backend system design, microservices, and DevOps automation**, with strong focus on performance optimization and scalability.
- Experienced in integrating **AI/ML systems, workflow automation (n8n), and real-time data pipelines** to streamline business processes.
- Adept at leading cross-functional teams, delivering enterprise-grade SaaS solutions, and building maintainable, secure, and scalable systems.

## KEY ACHIEVEMENTS

- **Architected** and developed **scalable** enterprise web applications using **Laravel** and **React** for **high-traffic** business platforms
- Built an **Augmented Reality (AR)** application that generates **immersive virtual environments** after marker scanning with **real-time backend** integration
- **Designed** and **developed** a loan management platform with **EMI tracking, repayment management, and secure API architecture** using **Laravel** and **React**
- Developed and customized **WooCommerce REST APIs** and integrated them with **Laravel-based systems** for seamless **eCommerce automation**

## CORE SKILLS

- **Backend & Architecture:** PHP, Laravel, Node.js, REST APIs, Microservices, System Design, RBAC, API Security, Event-driven systems, Wordpress plugin
- **Frontend:** React, Next.js, TypeScript, JavaScript, HTML5, CSS3, Bootstrap, SASS, Wordpress
- **Cloud & DevOps:** AWS (EC2, S3, RDS, Lambda), CI/CD (Jenkins, GitHub Actions), Docker, Linux
- **Databases:** MySQL, PostgreSQL, MongoDB, DynamoDB, Query Optimization, Indexing
- **AI & Automation:** n8n Workflow Automation, AI Integration, RAG Fundamentals
- **Tools & Testing:** Jira, Selenium, Cypress, Jest

## PROFESSIONAL EXPERIENCE

### [The Intellify](#) | Web Team Lead | Sr. Laravel Developer | Ahmedabad, India | Mar 2023 – Jun 2026

- Architecting and developing scalable web applications using **Laravel, React, and Node.js**
- Developed **high-performance** backend systems and **REST APIs** for **enterprise applications**
- Improved **API response time** and reduced **server load** through **query optimization** and **caching**
- Built secure **authentication systems**, role-based access control (**RBAC**), and **third-party integrations**
- Integrated payment gateways including **Stripe, Paystack** and **Razorpay**
- Worked on **AI-powered features**, automation **systems**, and scalable **SaaS platforms**
- Managed **AWS infrastructure** including **EC2, S3**, and **deployment pipelines** for **scalable production environments**
- Lead development **teams**, conducted **code reviews**, and **maintained coding standards**

### [App Gurus](#) | Sr. Laravel Developer | Remote (Australia) | Mar 2022 – Mar 2023

- Developed scalable backend systems and APIs using **Laravel** and **MySQL**
- Worked on performance **optimization** and **system security** improvements
- Managed CI/CD pipelines using **Jenkins** and **GitHub**
- Integrated third-party **APIs** and **cloud services** for **international clients**
- Collaborated with **frontend developers** using **React** and **TypeScript**
- Maintained and optimized **AWS infrastructure** including **S3, EC2**, and **RDS**

### [Anant Soft Computing](#) | Sr. Laravel Developer | Vadodara, India | Oct 2020 – Mar 2022

- Developed and maintained SaaS-based applications using **Laravel**
- Refactored legacy systems into optimized and maintainable architectures
- Built dynamic admin panels, APIs, and reporting systems
- Implemented Git-based workflows and deployment processes
- Worked closely with teams to improve system scalability and stability

### [Zetta10](#) | Laravel Developer | Jamnagar, India | Mar 2020 – Dec 2020

- Developed modular and scalable **Laravel** applications
- Optimized database queries and improved backend performance
- Created reusable components and API integrations
- Maintained application security and bug fixing processes

### [Smart WebTech](#) | Web Developer | Jamnagar, India | Aug 2018 – Feb 2020

- Developed dynamic websites and web applications using **Laravel, CodeIgniter**, and **WordPress**
- Built responsive and SEO-friendly websites for multiple clients
- Customized CMS solutions and integrated third-party plugins
- Managed hosting, database, and deployment-related tasks

### [Binarybits.co](#) | Full-stack Developer | Jamnagar, India | Feb 2018 – Jul 2018

- Developed full-stack applications using **PHP** and **Laravel**
- Managed end-to-end development lifecycle from UI to backend

## EDUCATION

- **Bachelor of Computer Application (BCA)** | Saurashtra University | 2016 – 2018
- **Computer Operator & Programming Assistant** | ITI | 2015 – 2016
- **Diesel Mechanic** | ITI | 2014 – 2015
